PROFESSIONAL SUMMARY

Motivated HND Software Engineering student at ICBT Campus with hands-on experience in web application development, frontend development, backend development, database management and UI/UX design through academic projects. Familiar with HTML, CSS, JavaScript, Bootstrap, PHP and MySQL, with practical experience developing a full-stack car rental web application. Currently seeking a Software Engineering or Full-Stack Development internship to gain industry experience, contribute to a professional development team and further improve technical skills.

EDUCATION

HND in Software Engineering — 2023 – 2026 (Expected)
ICBT Campus
Software Engineering • Web Application Development

International Diploma in Information and Communication Technology (Level 3) — 2021 – 2023
ICBT Campus
Information & Communication Technology

PROJECTS

SwiftDrive Rentals

Academic Project

Car Rental Web Application

A web-based car rental application developed as an academic Software Engineering project. It includes vehicle browsing, categories, search and filtering, customer authentication and a structured rental experience.

Key Features:

- Responsive user interface
- Vehicle catalogue and categories
- Search & filtering
- Customer registration and login
- Booking functionality
- Customer account management
- Admin management functionality
- JavaScript form validation
- PHP & MySQL backend

Technologies:

HTML | CSS | JavaScript | Bootstrap | PHP | MySQL

ADDITIONAL STRENGTHS

- Quick learner and self-motivated
- Problem-solving and analytical thinking
- Teamwork and collaboration
- UI/UX awareness
- Basic database design and management
- Ability to work with frontend and backend technologies
- Interested in modern Full-Stack Development
